[Github](#)

Full-stack developer with strong expertise in Java and Spring Boot. Passionate about backend development while also experienced in frontend.

EDUCATION

M.Tech

BITS Pilani, WILP
Aug 2022 - Present
Grades - 8.0 CGPA

BCA

Vivekananda Institute Of Professional Studies,
GGSIPU - Delhi, India
Completed in 2022
Grades - 9.54 CGPA

SKILLS

1. Programming Languages

- Core Java
- SQL
- JavaScript

2. Frameworks & Libraries

- Spring Core and MVC
- Spring Boot
- Angular
- React
- JUnit and Mockito

3. Architecture & Tools

- Microservices
- REST APIs
- Postman/Bruno
- Swagger
- Git/ GitHub
- Eureka
- Cucumber

4. SAP Technologies

- SAP Fiori/UI5
- SAP CAP
- BTP

PROJECTS

3D Portfolio Website :

Link: www.jasmita3dportfolio.com

Technologies used:

- Frontend:** React.js, Three.js, TailwindCSS, Frammer Motion
- Backend:** Node.js, Express.js
- Database:** MongoDB (for projects & contact form)
- Hosting/Deployment:** Vercel (Frontend), Render/Heroku (Backend), MongoDB Atlas (Database)
- Other Tools:** GitHub, Figma (UI/UX Design)

Personalized News Aggregator API

- Description:** Pulls news from multiple sources, categorizes by topic, and uses sentiment analysis to give users a customized feed.
- Technologies:**
 - Java, Spring Boot
 - MongoDB (for articles)
 - NewsAPI integration
 - NLP Library (Stanford NLP or spaCy via Python microservice)
 - Redis (for caching trending news)

WORK EXPERIENCE

SAP Ariba Procurement

Associate Developer

JULY 2024- PRESENT

- Developed **16 Inbound Entities** in MDCS by implementing **JSON schema validations, transformation mappings** (MDI - MDNI - ODM), and **CDS schemas** across publish-service, search-service, cap-mdcs, and mdcs-client.
- Implemented **file upload functionality** for **7 entities**, supporting **Excel-to-JSON parsing** and **automated data publishing** into SAP MDCS.
- Migrated **Angular framework from v11 to v18.2** to enhance application performance.
- Worked on **SAP Fiori (UI5)** enhancements for Master Data application - implemented search, filtering, layout persistence, file upload enhancements, and cross-browser defect fixes to improve user experience.
- Made **instruction sheet generation dynamic** by integrating APIs across two repositories, enabling automated data fetching, and eliminating manual intervention.
- Resolved over **20 UI defects** and **10 backend defects** to improve overall system reliability.
- Increased JUnit test coverage by **5%** through writing over **10,000** lines of test code.

Success Factors Next Gen Payroll

Scholar@SAP

JAN 2024- JUN 2024

- Worked on backend (**Java, SpringBoot**), Frontend (**Freestyle Fiori**) and **Microservices (Eureka)**.
- Solved **10+ UI Accessibility defects**.
- Worked on **verification of status and scope** using Java, and tested through **JUnits and Mockito**.

UX Engineering- SAP FIORI V2

Scholar@SAP

JUN 2023- DEC 2023

- Worked on **40+ incidents** (internal and customer) on BCP/IMS tool and Service now.
- Developed understanding on working of **Fiori Elements Framework, tech apps, XML templating, Message Handling, Side Effects, IAppState Handling, MVC Protocol and various Annotations**.
- Connected various customers of Germany, USA, China via teams call.

Digital Vehicle Operations

Scholar@SAP

SEPT 2022- MAY 2023

- Implemented and deployed Bookshop application and a Quotation application on HANA Trial with CRUD operations using **CAP JAVA**, including object page implementation with **Fiori annotations**.
- Designed object page using Fiori annotations for sales order entity, and deployed it in **SQLite database**.
- Explored and implemented **audit logging**, including analysis and understanding of **model, auditlogger, and service file**.
- Implementing **Validations using Java**, and tested through Junits and Mockito.

Shriram Pistons & Rings Ltd

Internship -Business Applications in Java

JUL 2021- SEP 2021

- Developed backend functionalities using **Java and JDBC** for seamless database connectivity and interaction.
- Designed and implemented database schemas, ensuring efficiency and reliability in data management.

QA-Solvers

Internship-Subject Matter Expert

JUL 2020- OCT 2020

- Created **90+** doubt solving videos on **Web Development, Python, Java, MySQL** (For bartleby).
- Created **10+** doubt solving videos for class **9th and 10th Maths** (For Vedantu)

ROLES & ACHIEVEMENTS (IN SAP)

- Delivered training to 50+ freshers through an intensive 5-day workshop** (9 AM-4 PM) on Java and Spring Boot. Conducted this training twice: for the 2024 batch (19th-23rd Aug 2024) and the 2025 batch (25th-29th Aug 2025).
- Hosted Women's Day 2023.
- Hosted a panel discussion at Placement Officer's Meet 2023.
- Secured **1st position** in Relay Race and Basketball (2022) In SAP Scholypmics.
- Volunteered for Innvent for Customer Event 2024.
- Volunteered at SAP Inside Track (SIT) 2023 & 2025.
